

Moose eats girls hand
By. Patrick Cronin

EXT. HIGHWAY REST STOP

Reporter JORDAN PETERSON stands next to OFFICER FORD in the background an enormous moose has each leg tied to a different tree.

JORDAN

Hello New Hampshire, I'm Jordan Peterson, and this is WMUR on the side of I-89 at the site of a gory attack. Reports are coming in that the moose behind me has just attacked a young girl. According to witnesses, the moose bit off the hand of the victim who was exploring the woods near the rest stop. The young girl has been rushed to the hospital. Here to comment is Officer Ford from high way patrol. What can you tell us, officer?

OFFICER FORD

Hi Jordan, well this is certainly an unprecedented situation, a lot of moving parts but nothing the highway patrol isn't prepared to handle

JORDAN

Can you tell us anything about the victim?

OFFICER FORD

Our report states that the girl's name is Susie Lue, she and her parents were at the rest stop when a moose approached and chomped her hand off

JORDAN

What is being done with the moose?

OFFICER FORD

Currently, we're trying to recover the hand, which we believe to be inside the moose

JORDAN

Is that even possible

OFFICER FORD

Most definitely, originally we were planning on feeding the moose a sizeable amount of explosives to blow a hole in the side of the animal and recover the hand.

JORDAN

Oh my

OFFICER FORD

Now, we believe the correct amount of dynamite placed *under* the Moose will blow a hole in the moose but not damage the hand.

JORDAN

How much dynamite is that exactly?

OFFICER FORD

Uncertain. Frank is running some numbers we'll have a plan of action within the hour.

JORDAN

Well, you heard it here first, a moose has swallowed the hand of Susie Lue. Local officials plan on bombing the moose in order to recover the hand. But if we look to my right we can see a group of protestors starting to form.

JORDAN

Sir what is going on here

SCOT ROWEL

Nothing out of the ordinary, just the police trying to murder an innocent creature.

SPONTANEOUS CHANT

Moose are men

JORDAN

What do you propose be done about the hand?

SCOT ROWEL

Laxatives. We feed the moose a ton of laxatives and wait for the hand to come out

JORDAN

Will the hand not be ruined in the process?

SCOT ROWEL

I don't believe so. I believe if we can find enough laxatives we can have the hand out within the hour

JORDAN

Differing approaches for sure, New Hampshire, but I can tell you one thing is certain. Tensions are rising as the fate of the Moose looms.

Cut to crowd

SMALL CHILD

Momma what kind of animal is that

MOTHER

That's a moose darling

SMALL CHILD

Wow, a moose! I'm gonna call him Larry

Cut back to Jordan

JORDAN

I'm joined now by frank the explosives expert for the highway patrol. Frank, please explain to us what is going to happen

FRANK

Expert? Good one. Well I'm thinking about eleven pounds of dynamite should just do enough damage to create a whole

JORDAN

Will the moose still be alive then?

FRANK

Well it's going to have a hole in its stomach

JORDAN

Right but It will still be alive for a while

FRANK

Not more than a few hours.

Cut to close up on the moose. Frank is seen crawling under the moose pushing a large crate of what must be explosives. It is clearly more than 11 pounds.

Cut officers push back the crowd there is a count down 3...2...1BOOOM. There is an enormous blast a cloud of moose chunks go flying in every direction.

Silence.

Simultaneously:

SMALL CHILD

AAAAAAAAAAAAAAAAAAAA

FRANK

WOOOOOOOOOAAAAHHHHHH

Cut to

INT. PRESS ROOM-OFFICER FORD

OFFICER FORD

Because the crates of dynamite were only sold in 25-pound crates, we were forced to work with a quantity that clearly was too large. We regret the decision. We would like to issue an apology to Susie Lue

whose hand was incinerated in the blast, although recent findings suggest that this was not even the moose that bit off her hand. To show our condolences we would like to donate \$1000 to help fit Susie with a prosthetic hand and another \$500 to the wildlife preserve fund. Ranger Frank Knox has been placed on administrative leave, without pay.

END

Hi

Oh hi darling

My names is Leanne and Susie had it coming to her

Oh my. Do you know Susie?

Yes Susie was my best friend till like two days ago. Then she told krissy that she thought my shoes were ugly.

Well what do you thik should be done about the hand?

Nothing.

Turns to camera

Excuse me Jordyn was it?

Yes

Were just about to ready to detonate, for the people watching at home we're using approximately twenty one pounds of dynamite, this should just break through the moose and hopefully the hand falls out

Your going about this all wrong

Turn to see old man

I've tried the dynamite, Ive tried the laxatives, and I've tried doing nothing but

murderer . Your the real animal. Jordyn let america know that we have veterinary grade suppositories on the way the animal does not need to die.

Motions to ear

Whats that, yes, fantastic.

Sir I am going to need to ask you and your group to clear the premises. Also, we have been forced to abandon the rescue plan for the hand, we have increased the amount of dynamite to 50 pounds

Why

Sir I am going to need you to follow my commands before I have to detain you

Let me insert the suppositories before you blow up the moose
